Date	Description	Amount (s)	Balance (s)
06 Jun	ATM withdrawal: Kepler Ring	-172,800	428,545,152
	The sum of 2 Standard days at Kepler Ring matches the withdrawal shown on the 6th last year to the note. The auditors have checked both, and the coincidence belongs to the machine, not the account. Ref. CIBT-2997-4080-3		
08 Jun	Payroll credit: Belt Ore Consolidated	+2,157,930	430,703,082
	Belt Ore Consolidated paid its share through the Positive Contact counter at Kepler Ring, in a unit the counter does not name. The counter asks that the sum be recorded in the unit of the wage itself, which is the only unit the Bank can read without asking. Ref. CIBT-2997-6550-7		
11 Jun	Transfer to own account: Kepler Ring	-19,100,799	411,602,283
	This sundry sat 28 days at the Kepler Ring desk while its officer finished a long exchange with a relay that would not stop explaining its own clock. The exchange ended on the 11th, and the sundry was released that afternoon. Ref. CIBT-2997-7C4F-3		
22 Jun	Slippage fee (Kepler Ring, 4 transfers)	-3,600	411,598,683
	The Kepler Ring branch sets its counter clock to local midnight, so a transfer made after closing is dated the following day here. The fee runs from the moment of crossing, not from the date on the slip, and is charged on that basis. Ref. CIBT-2997-FFBC-2		
25 Jun	Temporal Health Plan	-22,518	411,576,165
	The Belt Ore Consolidated staff clinic charged no fee for the consultation, because the clinic is in the same building as the payroll office. The payroll office does not charge for itself, and the clinic does not charge for the payroll office. Ref. CIBT-2997-5011-8		
30 Jun	Interest at 4.80% APY	+1,714,871	413,291,036
	At the Ceres branch interest is calculated on the local day and paid in ore-weight, which the vault converts to seconds at its own scale. The scale is visited on the first working day of the month by appointment, and the appointment is kept. Ref. CIBT-2997-7D6B-2
