Date	Description	Amount (s)	Balance (s)
13 Jul	Deposit: Hall E	+45,819,791	1,069,514,665
	Io's window takes deposits through a hatch the colour of the vents, and the envelope is wiped down with a cloth before the Teller will touch it. The sum was counted in gloves and found to agree with the slip, which the Io office says is its own kind of miracle. Ref. CIBT-3002-196D-5		
21 Jul	Payroll credit: Montréal Sector Transit	+9,632,439	1,079,147,104
	The auditors asked why a wage credit from Montréal Sector Transit was split across two accounts at Hall E. The split followed the firm's written instruction, which the auditors have checked against its register of signatures. Ref. CIBT-3002-9003-1		
21 Jul	Temporal Health Plan	-22,888	1,079,124,216
	The plan's address on your statement was out of date and has been changed. Earlier premiums were sent to a branch of the Bank that closed in 3001, and the plan has confirmed that they were received. Ref. CIBT-3002-CE17-7		
23 Jul	ATM withdrawal: Phobos	-86,400	1,079,037,816
	The One Standard day was held at Phobos while a dust front closed the concourse for 28 days. The machine kept the sum in its tray, which is the only place, the custodian says, that it could have been kept. Ref. CIBT-3002-2BBC-6		
28 Jul	ATM withdrawal: Phobos	-172,800	1,078,865,016
	Your standing draw is pre-authorised at Phobos for the 28th of each month. The machine has been installed longer than its custodian, and the custodian says it has never once asked to be authorised again. Ref. CIBT-3002-0470-0		
31 Jul	Interest at 4.90% APY	+4,180,087	1,083,045,103
	Interest at 4.90% APY is posted in whole seconds at the close of each Pallas Ring 10 day. Anything smaller than a second is entered in pencil on the back of the worksheet, and the officer who initials the worksheet has never yet had to add it up. Ref. CIBT-3002-A1CC-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
