Date	Description	Amount (s)	Balance (s)
12 Oct	Payroll credit: Montréal Sector Transit	+9,632,439	1,607,113,042
	Montréal Sector Transit writes its remittance advice in pencil on a card that has been used for 48 years, and the figure on it is the figure we posted. Nobody at the office has said why the card is still in service, and the Bank has not asked. Ref. CIBT-3019-5234-1		
13 Oct	Slippage fee (Titan, 9 transfers)	-8,100	1,607,104,942
	Your employer's payroll office sends its transfers from a clock set two seconds ahead of ours, so each crossing from Montréal Sector Transit arrives early and is charged for the difference. The office has been told. It replies that it is paid on time and that the seconds are the Bank's concern. Ref. CIBT-3019-3908-7		
21 Oct	ATM withdrawal: Titan	-259,200	1,606,845,742
	A line on your last statement dated this withdrawal to the day before, because the machine's clock had been set by hand after a fault. It was made on the day shown here. The machine has been set to agree with the branch clock, which took the custodian 31 Standard days and a ladder. Ref. CIBT-3019-7B64-2		
27 Oct	Temporal Health Plan	-42,253	1,606,803,489
	The officer asks that receipts travel separately from the cheques they refer to. The rule has been in the plan since it was first written down, and nobody has yet found a good reason to change it. Ref. CIBT-3019-96A4-3		
29 Oct	Deposit: Hall E	+62,857,445	1,669,660,934
	The counter rounded your deposit down to the whole cycle, and the 0.994 remainder went to the desk's rounding line, where whoever next balances the drawer will find it and wonder whose it is. Ref. CIBT-3019-7B6F-0		
31 Oct	Interest at 4.90% APY	+6,523,045	1,676,183,979
	The interest was credited a second early, on the strength of a clock at Titan that the local office has since admitted was running fast. The early second has been taken back, and the sum is correct to the second. Ref. CIBT-3019-4315-0

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
