Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
163,106,321 s	**+1,686,215 s**	**-4,236,065 s**	**160,556,471 s**

Date	Description	Amount (s)	Balance (s)
01 Aug	ATM withdrawal: Nairobi Sector	-172,800	162,933,521
	Withdrawals at the machine are rounded down to the whole second, and the fraction is credited on the next statement. This withdrawal left 0.967 of a second, which has been credited to you. Ref. CIBT-2933-0BFA-8		
04 Aug	Payroll credit: the Ceres Ring Assay Office	+1,128,936	164,062,457
	The Teller counted the credit twice, once in days and once in the Ceres Ring Assay Office's own figures, and reports that the two agree. That is more than can be said for most employers. Ref. CIBT-2933-5375-1		
14 Aug	Transfer to joint account	-677,361	163,385,096
	A visitor witnessed the transfer after coming in with a brass key on a string, which fits nothing in the building, which was left on the chair beside the counter. The visitor was not a holder, and the Bank has noted the courtesy without assigning it to either. Ref. CIBT-2933-72CC-8		
26 Aug	Transfer to own account: Nairobi Sector	-3,385,904	159,999,192
	The Ceres Ring Assay Office has asked that its sundry statements be kept in a box at the Memory Vault, on the grounds that nothing is ever lost there. The Vault has agreed to store them at the normal rental, but not to read them. Ref. CIBT-2933-C564-5		
31 Aug	Interest at 4.10% APY	+557,279	160,556,471
	A correction to the interest for 2929: the Bank printed the figure as a deposit and then printed the correction as a withdrawal. Both have been struck, the interest stands, and the balance has not been asked to pay for the Bank's grammar. Ref. CIBT-2933-E792-0

September 2932 August 2933

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
