Date	Description	Amount (s)	Balance (s)
09 Oct	Transfer to own account: Europa	-483,029	8,890,813
	Your statement called this a service charge. It was a service that had been charged, which is a different thing in the ledger and the same sum in your pocket. The description has been amended. The figure, 0.30 s, stands. Ref. CIBT-3006-4D9A-3		
10 Oct	ATM withdrawal: Europa	-86,400	8,804,413
	Withdrawn at Europa and rounded to the nearest cycle in your favour. The Bank's rounding has gone your way before, and each time the statement says so in the same line, which nobody has thought to change. Ref. CIBT-3006-E015-0		
12 Oct	Payroll credit: the Europa Ice Authority	+157,317	8,961,730
	Reconciled against the employer's ledger on the 12th. The ledger is kept in cycles and the statement in the Europa Ice Authority's own figures, and the two were brought together by hand, which the auditors describe as slow and correct. Ref. CIBT-3006-697E-6		
27 Oct	ATM withdrawal: Europa	-86,400	8,875,330
	The withdrawal at Europa was held in the hand of an officer who was going off shift, and the relay then confirmed a balance it had already confirmed once. The second confirmation is the more thorough of the two, and the sum is as you asked for. Ref. CIBT-3006-96E1-0		
31 Oct	Interest at 4.20% APY	+32,808	8,908,138
	Interest on the Europa balance was paid in 0.960 cycles and the rest in our seconds. The posting day is the Head Office's, and the officer there reminds depositors that the second is a little longer on that world than they might expect. Ref. CIBT-3006-3D6E-3
