Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
19,267,271 s	**+224,752 s**	**-423,404 s**	**19,068,619 s**

Date	Description	Amount (s)	Balance (s)
03 Sep	Transfer to own account: Kepler Ring	-242,504	19,024,767
	The transfer from Ines Valderrama was sent with a reference in turns and a sum in seconds, and the clerk at Hall E asked for both to be the same. They were not. The sum has been posted as sent, and the reference has been left as it came. Ref. CIBT-3027-21E0-0		
09 Sep	Payroll credit: the Europa Ice Authority	+157,317	19,182,084
	For the auditors: the Europa Ice Authority credit was reconciled to the penny against the payroll file, then to the second against the file's own clock. Both agreed. The file was returned with a note that it could now be trusted to be wrong in a different way. Ref. CIBT-3027-5F7F-2		
23 Sep	ATM withdrawal: Kepler Ring	-172,800	19,009,284
	The machine hesitated for 57 minutes before the 2 Standard days came out. This is what the relay does when it is asked something it has not been asked before. Nothing is owed on the pause. Ref. CIBT-3027-289D-5		
25 Sep	Slippage fee (Kepler Ring, 9 transfers)	-8,100	19,001,184
	The slippage on the 9 crossings to Kepler Ring fell on the same second as the Europa Ice Authority remittance, so the two were charged together. Each pays its own 0.30 s, and the statement shows them on one line for reasons of space. Ref. CIBT-3027-67D7-6		
30 Sep	Interest at 4.20% APY	+67,435	19,068,619
	The interest for the last 31 days was not posted, because the officer who approves late interest had walked to the far end of the Hall E concourse to meet a courier who had not yet arrived. The officer has come back, and the interest has been posted at the rate of the days it was owed for. Ref. CIBT-3027-6D2C-3

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
