Date	Description	Amount (s)	Balance (s)
13 Jul	Turbulence Cover	-22,621	13,972,632
	The Turbulence premium is drawn on the same afternoon as the rent, the two being filed by one clerk under a single tab, so that the cover for the journey and the roof over it are settled together. Ref. CIBT-2997-4A84-4		
16 Jul	Slippage fee (Bronx Sector, 6 transfers)	-3,600	13,969,032
	Crossings are reckoned on the relay's clock, which keeps its own time over the hall clock ticking off the seconds and does not expect to be consulted. The fee of 0.30 seconds is the difference between that time and ours. Ref. CIBT-2997-9E8A-6		
20 Jul	Transfer to joint account	-55,688	13,913,344
	Soren Northcott has checked the joint balance against the transfers every month since 2996 and has never found a difference. The checking has now been checked, and has found no difference there either. Ref. CIBT-2997-6240-3		
23 Jul	ATM withdrawal: Bronx Sector	-86,400	13,826,944
	Carrying One Standard day across the concourse, you wear the air of someone delivering a letter you did not write. The Teller has not asked what was in it. Ref. CIBT-2997-B8F9-8		
28 Jul	Transfer to own account: Bronx Sector	-1,695,518	12,131,426
	The 1,695,518 on the 28th was the sundry before its discount. The discount has been credited and the line restated to the net, so that it reads as the officer always meant it to. Ref. CIBT-2997-6AD9-3		
31 Jul	Interest at 3.90% APY	+45,484	12,176,910
	Your standing interest on 8564-4180-4346 is paid each year on the first day of the fiscal year, and each year the payment is drawn from the account of Brymar College, which has never asked why. Ref. CIBT-2997-3C24-9

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
