Date	Description	Amount (s)	Balance (s)
05 May	Payroll credit: Kepler Ring Hydroponics	+8,376,697	987,646,007
	The ferry from London Sector landed on a Thursday, so the wages it carried are dated Thursday, though they left on the Tuesday and were counted on the Wednesday. The Bank has accepted all three days as one. Ref. CIBT-3029-599F-3		
08 May	Slippage fee (London Sector, 8 transfers)	-2,400	987,643,607
	Kepler Ring Hydroponics pays its share of the crossing by a separate instruction. The instruction arrives 30 days before the transfer and is charged for the waiting. The Bank has been asked whether a fee for waiting is a fee for slippage. It is, and it is shown on this line as one. Ref. CIBT-3029-7C74-5		
23 May	Deposit: Hall E	+24,572,653	1,012,216,260
	You have never deposited on the first day of a month, and you have never once deposited on the last. The officers at Hall E have noticed, and have moved the queue for those days to the far window, where you are never kept waiting. Ref. CIBT-3029-763E-5		
29 May	New Time™ exchange	+22,998	1,012,239,258
	The holder brings New Time™ to the Hall E window on the 29th of every month, in the same envelope, and asks each time whether the envelope is still needed. The officer says it is, and the holder has never asked why. Ref. CIBT-3029-4824-6		
31 May	Interest at 3.60% APY	+2,937,807	1,015,177,065
	The interest on your Chrono-Forex holding is credited in the pair's base unit and converted at the close of the 31st. The figure beneath it is the conversion, not the interest, and the two should not be read as one. Ref. CIBT-3029-3C72-9

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
