Xan Mbatha
Unit 398, Pallas Ring 10

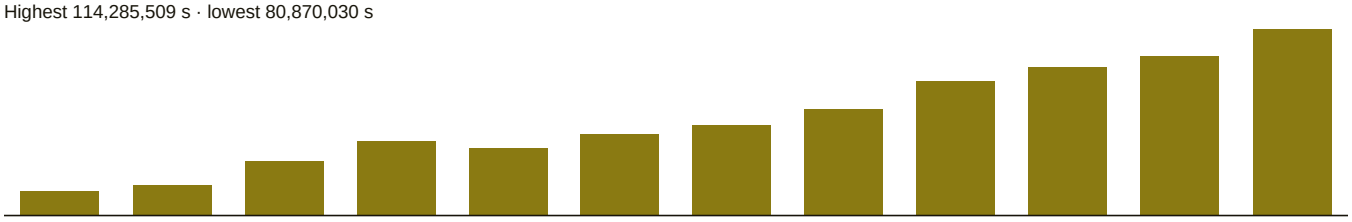

Account 8564-1663-5931
Period 1–31 January 2997
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
108,600,502 s	**+6,420,389 s**	**-735,382 s**	**114,285,509 s**

Date	Description	Amount (s)	Balance (s)
06 Jan	Memory Vault: box 88-977, quarter	-259,200	108,341,302
	Rental for box 88-977, rounded to the nearest whole second under the Vault's schedule. The Vault rounds its charges only at the close of the year, so the rounding does not show on a quarterly statement and will not show until then. Ref. CIBT-2997-F55A-0		
13 Jan	ATM withdrawal: Mars Station	-172,800	108,168,502
	You have taken 2 Standard days from the machine at Mars Station on the 13th of every month since it was installed, never more and never less. The machine has come to expect the figure, and the Bank has come to expect you. Ref. CIBT-2997-AA55-5		
14 Jan	Transfer to joint account	-303,382	107,865,120
	Each month the joint account sends a small sum to 8564-8933-4289 toward a newspaper subscription that nobody reads. The holders have renewed it every year since 2994, and the Bank has never asked which of them reads it. Ref. CIBT-2997-4D09-4		
20 Jan	Deposit: Hall E	+5,516,550	113,381,670
	Each deposit you make at the Hall E window arrives in a paper wrapper folded at both ends, the way the window taught you in 2993. You have never asked for the wrapper back, and the officers now unfold it without being asked. Ref. CIBT-2997-1606-4		
25 Jan	Payroll credit: the Lunar Freight Co-operative	+505,638	113,887,308
	This credit was 29 days late because the employer's office at Mars Station keeps its own Sunday, which the Bank does not. The Bank has been asked to wait for it, and has. Ref. CIBT-2997-7E02-1		
31 Jan	Interest at 4.40% APY	+398,201	114,285,509
	You ask each year whether the interest can be paid in the coin of the day it was earned. The Teller explains each year that it is a figure, not a coin. You have said you will ask again next year, and you do. Ref. CIBT-2997-F95A-4

February 2996 January 2997

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
