Period 1–31 May 2954
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
46,931,936 s	**+1,844,939 s**	**-447,484 s**	**48,329,391 s**

Date	Description	Amount (s)	Balance (s)
05 May	ATM withdrawal: Montréal Sector	-172,800	46,759,136
	The cash for the 5th was sent to Montréal Sector by the supply courier, which goes once a Standard week, and the withdrawal waited 28 days for it to come down. The courier was thanked for the journey, and the cash was paid on arrival. Ref. CIBT-2954-C984-4		
05 May	Slippage fee (Montréal Sector, 2 transfers)	-600	46,758,536
	Your employer has asked for a copy of this schedule, since the seconds lost on the run were its payroll's. A copy has gone to its office at Hall E, and the original is kept here. Ref. CIBT-2954-3B53-3		
06 May	ATM withdrawal: Montréal Sector	-259,200	46,499,336
	You asked the machine at Montréal Sector for 259,200 and it paid out 3 Standard days. The officer on the concourse has checked the difference twice and found it in your favour, and it is entered as a courtesy, with no explanation, which is how the Bank records its own generosity. Ref. CIBT-2954-3282-9		
13 May	Deposit: Hall E	+1,657,212	48,156,548
	Deposits in this account are kept to the nearest whole second, so the 0.979 left over from this one has gone into the tin on the counter, where it sits with the others until someone asks for it. Nobody has asked, and the tin is getting heavy. Ref. CIBT-2954-479A-1		
24 May	Turbulence Cover	-14,884	48,141,664
	Audit query closed: the premium was rounded up to the whole day as the schedule requires, and the rounding, checked against the schedule, was found to fall in the carrier's favour. The carrier has been asked to note it. Ref. CIBT-2954-7F45-2		
31 May	Interest at 4.80% APY	+187,727	48,329,391
	When the interest works out to half a second, the Bank rounds towards the depositor. This period it did so twice, which the officer has entered as a small kindness. Ref. CIBT-2954-65CC-3		

Closing balance, month by month

Highest 48,329,391 s · lowest 28,549,385 s

June 2953 May 2954

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
