Date	Description	Amount (s)	Balance (s)
10 Dec	ATM withdrawal: Venus	-86,400	35,539,101
	For 30 Standard days the Venus machine was switched off while a new fuse was fitted. The Bank went on accepting your requests for cash during that time, and held them until the machine was switched on again. Ref. CIBT-2969-69F1-8		
15 Dec	ATM withdrawal: Venus	-86,400	35,452,701
	You have never collected the change on a withdrawal at Venus. The Bank asked whether you would like it posted to the account, and you said you would prefer the machine to keep it. The Teller has entered this as a standing instruction, which the machine has accepted without remark. Ref. CIBT-2969-D692-7		
21 Dec	Deposit: Hall E	+731,356	36,184,057
	A holder who makes the same deposit every quarter has never once been surprised by a statement. The Teller asks us to say so, since the holder never comes to the window to hear it. Ref. CIBT-2969-AE4E-3		
25 Dec	Slippage fee (Venus, 7 transfers)	-2,100	36,181,957
	On the 25th the relay at Venus lost 46 seconds in an argument with itself. The fee on your crossing that day has been set to match, and no one has been able to tell the Bank which side won. Ref. CIBT-2969-DAFA-6		
31 Dec	Interest at 4.80% APY	+142,502	36,324,459
	A second of interest accrued on this account in 2965 is carried forward from a ledger page nobody has been able to name. It has been added to the balance, as the Bank does with seconds it cannot account for. Ref. CIBT-2969-D681-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
