| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 05 May | Payroll credit: Phobos Drydock | +1,294,582 | 168,996,448 |
| | For the auditors: this wage came from a remittance whose payroll number is already on the register under another employer's name. The sum agrees and the employer does not, so the entry has been kept on Phobos Drydock's side and the register note left as found. Ref. CIBT-2952-4C40-9 | | |
| 10 May | Transfer to own account: Io | -2,535,423 | 166,461,025 |
| | A stationery sundry of 2,535,423 is drawn on the last working day of every quarter for paper the Bank has never been asked to supply. The stationer at Io sends a receipt in the Bank's own format, copied from a form the Bank supplied in 2949. Ref. CIBT-2952-D7E1-1 | | |
| 22 May | ATM withdrawal: Io | -172,800 | 166,288,225 |
| | No fee is charged on this withdrawal. The machine asked whether you wished to continue, and you said yes. The Bank regards a withdrawal confirmed by the customer as one the customer intended. Ref. CIBT-2952-EB57-3 | | |
| 28 May | ATM withdrawal: Io | -259,200 | 166,029,025 |
| | The withdrawal of 3 Standard days on the 28th was shown at Io in the wrong unit. The machine paid out in cycles, as it should, and the line has been reworded to say so. No money moved that did not move before. Ref. CIBT-2952-B79C-5 | | |
| 31 May | Interest at 3.70% APY | +517,080 | 166,546,105 |
| | The Io office pays interest in cycles and bills in seconds, and the two have never once agreed where a month ends. Your credit has been settled on the nearest Earth second, which the local officer calls a truce. Ref. CIBT-2952-55FD-4 | | |

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
