Period 1–31 July 2986
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
103,408,190 s	**+3,213,452 s**	**-345,900 s**	**106,275,742 s**

Date	Description	Amount (s)	Balance (s)
06 Jul	ATM withdrawal: Mars Station	-259,200	103,148,990
	Phobos Drydock pays into this account on the 6th, and you withdraw from it at Mars Station the same afternoon, which the machine has learned to expect. It asked this time for the sum in sols, since the payroll office says that is how the wages are paid. Ref. CIBT-2986-4E91-4		
07 Jul	ATM withdrawal: Mars Station	-86,400	103,062,590
	The amount on the 7th was first sent as One Standard day, which was the machine's estimate, made before the relay had confirmed the balance. The confirmed sum is the one on this line, and the estimate has been struck from the record. Ref. CIBT-2986-7ACA-9		
07 Jul	Slippage fee (Mars Station, 1 transfers)	-300	103,062,290
	The 1 crossings this month were held at the Mars Station relay for 30 days while it waited for the interval the manual calls "the sensible gap". The gap has now passed, and the seconds are on their way. Ref. CIBT-2986-0176-3		
11 Jul	Deposit: Hall E	+2,894,611	105,956,901
	The slip was split between your account and 8564-6771-1789, half and half, and the officer has written the split in the margin in your hand, which was the only thing the slip lacked. Ref. CIBT-2986-C17C-5		
31 Jul	Interest at 3.70% APY	+318,841	106,275,742
	Every quarter you ask what the interest would have been if it had been paid out, a question the Bank answers in full and that you have never acted on. The answers are kept in a folder with your name on it, and the folder is getting thick. Ref. CIBT-2986-86D3-6

August 2985 July 2986

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
