Opening balance	Credits	Debits	Closing balance
205,961,701 s	**+1,929,630 s**	**-2,036,539 s**	**205,854,792 s**

Date	Description	Amount (s)	Balance (s)
04 Dec	ATM withdrawal: Phobos	-86,400	205,875,301
	The machine at Phobos dispenses sols from a drawer fitted before the station had its first oxygen plant, and nobody has asked it to change its stock. Your withdrawal was paid from that drawer, which the custodian describes as sound. Ref. CIBT-2989-0D00-2		
17 Dec	Payroll credit: Phobos Drydock	+1,294,582	207,169,883
	The 0.30 s conversion charge on this Phobos Drydock wage was refunded. The converter's own office sent a note explaining that it had converted at the rate it was given and had not thought to ask whether the rate was for the day or the week, which it now has. Ref. CIBT-2989-A923-3		
28 Dec	ATM withdrawal: Phobos	-86,400	207,083,483
	The One Standard day withdrawal at Phobos was refused on the 28th, because the balance had not yet crossed to the local branch, and was accepted at the second attempt. The refusal has been removed from the statement, and no fee was taken for it, since the fault was the balance's and not yours. Ref. CIBT-2989-3AFC-3		
29 Dec	Transfer to own account: Phobos	-1,863,739	205,219,744
	"Nobody has ever asked for a sundry to be explained in person," the Teller says, "so I have begun explaining them to the window." The window has not objected. Ref. CIBT-2989-66AA-8		
31 Dec	Interest at 3.70% APY	+635,048	205,854,792
	Interest holds no opinions, the Teller remarks, and she has never yet seen a depositor argue with it successfully. Ref. CIBT-2989-1B2E-4

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
