Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
21,415,053 s	**+500,971 s**	**-178,200 s**	**21,737,824 s**

Date	Description	Amount (s)	Balance (s)
02 May	Slippage fee (São Paulo Sector, 9 transfers)	-5,400	21,409,653
	You cross to São Paulo Sector on the 2nd of each month, always in the early hours before the relay opens, so the fee is charged at the early-hours rate. The officers say it is the lowest the Bank has ever posted. Ref. CIBT-3014-6629-5		
11 May	ATM withdrawal: São Paulo Sector	-172,800	21,236,853
	2 Standard days withdrawn at São Paulo Sector, where the machine stands in the arrivals hall between the lifts and is used mostly on the day of arrival. Cash was held behind the grille at the far end of the hall while the relay confirmed the balance, and was paid out in full. Ref. CIBT-3014-E622-3		
12 May	Payroll credit: St. Catherine Bakeries	+167,743	21,404,596
	St. Catherine Bakeries moved its pay calendar in 3012 to run from the day staff are rostered rather than the day they were hired. The first credit under the new calendar came 30 days early, and the Bank has adjusted the statement without altering its own calendar. Ref. CIBT-3014-345D-4		
26 May	Deposit: Hall E	+272,553	21,677,149
	The first slip for the 26th gave the deposit as 3 d 03:42:33, the spoken form, which the statement does not use. The written figure, 272,553, is the one held, and the slip has been replaced. Ref. CIBT-3014-CD16-8		
31 May	Interest at 3.40% APY	+60,675	21,737,824
	Reading the rate from the card, the Teller keeps her thumb over the last two digits so that you can give the figure yourself. You do, and she says you were right, and that she would have been quicker. Ref. CIBT-3014-C1FF-6

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
