Opening balance	Credits	Debits	Closing balance
17,497,974 s	**+248,277 s**	**-346,800 s**	**17,399,451 s**

Date	Description	Amount (s)	Balance (s)
07 Jun	Slippage fee (Nairobi Sector, 2 transfers)	-1,200	17,496,774
	Your employer's payroll office sends its transfers from a clock set two seconds ahead of ours, so each crossing from St. Catherine Bakeries arrives early and is charged for the difference. The office has been told. It replies that it is paid on time and that the seconds are the Bank's concern. Ref. CIBT-3028-1658-7		
09 Jun	ATM withdrawal: Nairobi Sector	-172,800	17,323,974
	A fee of 0.30 s was charged on this withdrawal, rounded up to the next whole second as the schedule requires. The schedule rounds the other way for sums under one day, which is why the figure on your receipt and the figure on this line do not always agree. Ref. CIBT-3028-2599-2		
19 Jun	ATM withdrawal: Nairobi Sector	-172,800	17,151,174
	St. Catherine Bakeries asks its staff to draw cash at Nairobi Sector on pay day, and the machine is loaded for the purpose at dawn. Your withdrawal on the 19th was one of the first, taken from the early load. Ref. CIBT-3028-601E-5		
20 Jun	Deposit: Hall E	+198,700	17,349,874
	The Teller points out that the coins were all facing the same way. In her experience this is a sign of either good character or a long wait, and she has not yet decided which. Ref. CIBT-3028-09E2-9		
30 Jun	Interest at 3.40% APY	+49,577	17,399,451
	Auditors queried the figure on the 30th line, then withdrew the query after working the interest three times with three hands and reaching the same sum. They have recorded the withdrawal as a confirmation and expect no further workings. Ref. CIBT-3028-55B1-6

July 3027 June 3028

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
