Priya Prendergast
Unit 81, Pallas Ring 10

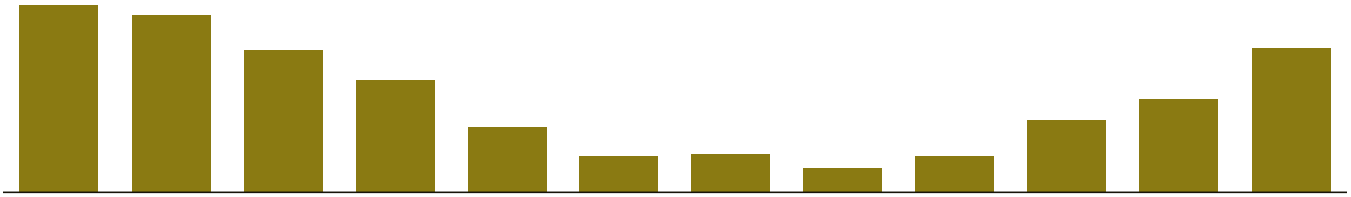

Account 8564-2007-7708
Period 1–30 June 3028
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
8,939,258 s	**+1,756,766 s**	**-348,933 s**	**10,347,091 s**

Date	Description	Amount (s)	Balance (s)
03 Jun	ATM withdrawal: Europa	-86,400	8,852,858
	Phobos Drydock pays its drivers' expenses through the same machine, in fives, so your withdrawal on the 3rd came out in the same notes as the firm's own mail. The Bank has asked the firm to keep the two stacks apart. Ref. CIBT-3028-B891-3		
08 Jun	Slippage fee (Europa, 1 transfers)	-900	8,851,958
	Phobos Drydock asked that the slippage on its remittances be quoted in minutes, for presentation. The Bank quoted it in minutes; the file keeps it in seconds, where the figure is correct. Ref. CIBT-3028-75B4-1		
11 Jun	ATM withdrawal: Europa	-172,800	8,679,158
	Your draw at Europa came out 0.976 cycle heavier than asked, as it does each month. The Bank has charged the difference to the machine, which has agreed to repay it in kind. Ref. CIBT-3028-8F3B-8		
19 Jun	Deposit: Hall E	+1,572,954	10,252,112
	A deposit of 18 d 04:55:54 is credited to the hour and no finer, unless the depositor has asked for seconds. This depositor has not, and the figure stands as the slip has it. Ref. CIBT-3028-FBDA-4		
21 Jun	Transfer to joint account	-88,833	10,163,279
	Asked which of the two of you the statement was for, the Teller said it was for the account, and that the account had been consulted and had no objection. Ref. CIBT-3028-1CF6-5		
25 Jun	Payroll credit: Phobos Drydock	+148,055	10,311,334
	Each 25th you bring the Phobos Drydock envelope to the window unopened and wait while the Teller opens it, then count the slip aloud before taking it home. The Teller now counts along with you, under her breath, and the two counts have never differed. Ref. CIBT-3028-F873-7		
30 Jun	Interest at 4.80% APY	+35,757	10,347,091
	The Bank rounds an exact half-second to the even second, a rule taken from an old tailor's ledger in 3027 and kept because nobody has found a reason to change it. This period one such half fell on the close, and the figure went to the lower of the two seconds. Ref. CIBT-3028-3C2A-8		

Closing balance, month by month

July 3027 June 3028

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
