Dagny Sorensen-Vey
Unit 138, Pallas Ring 10

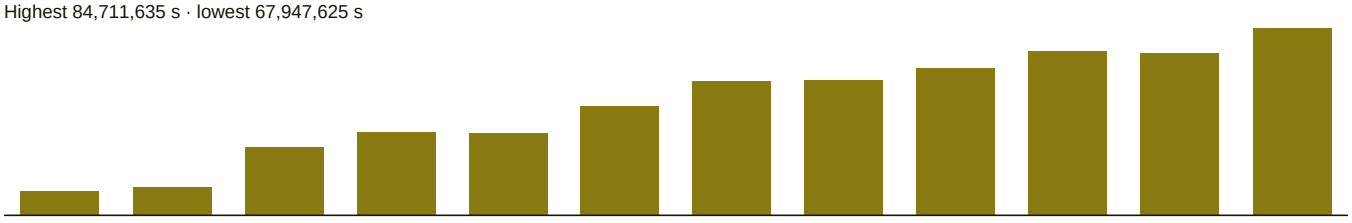

Account 8564-2175-5708
Period 1–31 May 3010
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
82,204,077 s	**+2,707,106 s**	**-199,548 s**	**84,711,635 s**

Date	Description	Amount (s)	Balance (s)
02 May	ATM withdrawal: The Belt	-172,800	82,031,277
	The duty officer at Hall E stepped out to confirm that the machine had really stopped, and the cash waited 30 days behind the register's cover, with the spare chits before the sum was released. The machine had stopped, as he had suspected, and was never asked to explain why. Ref. CIBT-3010-BD19-6		
03 May	Payroll credit: the Lagrange Four Commissary	+329,097	82,360,374
	The Lagrange Four Commissary pays its drivers by the run and its clerks by the hour, and you appear in its register as both. The Bank has credited the two sums to one account, which the employer says is the first time it has been asked to be consistent. Ref. CIBT-3010-4882-0		
06 May	Deposit: Hall E	+2,124,547	84,484,921
	The 0.30 s counting fee on this deposit has been waived. The notes were counted once by the machine and once by the Teller, and the Bank does not charge twice for a count that agreed, however quietly it was done. Ref. CIBT-3010-636A-0		
18 May	Slippage fee (The Belt, 4 transfers)	-3,600	84,481,321
	On The Belt the day is shorter than ours, so slippage is charged per local hour and converted to the Standard rate. The local office reports this as a matter of pride, and asks that the fee be read as 0.30 s per local hour, which is 1,800 seconds less than the Head Office would charge. Ref. CIBT-3010-897A-9		
19 May	Temporal Health Plan	-23,148	84,458,173
	Auditors' note: the reimbursements on this line were checked against the provider's ledger and the plan's own, and the two agree to the second. The auditors have closed the query on the seconds. Ref. CIBT-3010-69B5-6		
31 May	Interest at 3.70% APY	+253,462	84,711,635
	The auditors asked why the interest for the 31st is one second higher than the sum of the daily figures. The answer is the leap second the Clock Standards Board added in 3009, which the daily figures did not carry. Ref. CIBT-3010-AEFA-5		

Closing balance, month by month

Highest 84,711,635 s · lowest 67,947,625 s

June 3009 May 3010

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
