Date	Description	Amount (s)	Balance (s)
06 Jul	ATM withdrawal: Mars Station	-172,800	1,114,988,829
	Standing withdrawals of this size have been made from Mars Station on your behalf since 2992. The machine knows the sum by now, and the teller has taken to passing the slip across without being asked. Ref. CIBT-2996-AFCA-5		
15 Jul	Deposit: Hall E	+24,328,939	1,139,317,768
	Rounding on this deposit was taken to four places and then to the whole second, the Bank's rule for sums paid in sols. The working is filed with the auditors, who have asked that it be kept beside the slip and not the statement. Ref. CIBT-2996-EC4E-5		
17 Jul	Slippage fee (Mars Station, 7 transfers)	-6,300	1,139,311,468
	The slippage on your last statement was calculated across 7 crossings when only 8 had been made. Two of the transfers were in the wrong month's queue. The fee has been recalculated across 8 crossings, and the difference of 0.30 s is credited below. Ref. CIBT-2996-1992-1		
25 Jul	Transfer to joint account	-2,981,266	1,136,330,202
	The joint transfer was delayed 29 days because the clerk at Mars Station needed the mandate rendered into the local hand, and the only person who could do it had moved to the far side of the station to be near her family. Ref. CIBT-2996-921A-9		
31 Jul	Interest at 4.10% APY	+3,810,135	1,140,140,337
	The Lunar Freight Co-operative paid a bonus into this account by mistake. It earned interest for 30 days and was then moved to the wages line, where it was paid, with the interest included. The bonus was more interested in the interest than in the wages, and the Bank has recorded that without comment. Ref. CIBT-2996-5219-7

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
