Date	Description	Amount (s)	Balance (s)
04 Jun	Payroll credit: the Lunar Freight Co-operative	+4,968,777	426,106,245
	The rule rounds the Lunar Freight Co-operative's pay to the nearest 53-second block rather than the whole second, so the credit of 4,968,777 came out 53 seconds short of the contract. The contract has been read again. It says "about", and the Bank accepts that. Ref. CIBT-3029-6D2F-8		
05 Jun	ATM withdrawal: Titan	-86,400	426,019,845
	Cash at Titan comes out in whole cycles and the account is held to the second, so the odd 0.988 cycle is credited to 8564-2177-9708 as 1,800 seconds at the posted rate, and the machine is not told. Ref. CIBT-3029-0E4C-2		
09 Jun	Deposit: Hall E	+16,240,907	442,260,752
	The deposit was made by the Lunar Freight Co-operative on the strength of a job you signed off on the 9th. Its office wrote to the Bank to say the job was finished and the sum was correct, and the Bank credited the sum on the day the letter was read. Ref. CIBT-3029-A0BC-2		
11 Jun	Transfer to joint account	-2,981,266	439,279,486
	The second holder signed the transfer at Titan, where it was already afternoon when the first holder finished breakfast in Pallas Ring 10. The Bank has confirmed that both signatures were made within the same cycle, and has recorded that as a meeting. Ref. CIBT-3029-AA7D-9		
15 Jun	Slippage fee (Titan, 6 transfers)	-3,600	439,275,886
	The cable to Titan was closed for maintenance on the 15th, and transfers queued in the order received. Yours arrived 60 minutes after the closing. The fee reflects the crossing alone; the wait is shown in full on the line below. Ref. CIBT-3029-E872-6		
30 Jun	Interest at 4.10% APY	+1,438,886	440,714,772
	The half-second rule is old: half up on the first working day of the month and half down on every other. This period closed on the first working day, so the odd half-second has gone to you, and the officer has noted it in the margin in pencil. Ref. CIBT-3029-9916-3

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
