STATEMENT OF ACCOUNT

Standard Time Deposit

Zola Ostrander-Whitlock
Unit 17, Pallas Ring 10

Account 8564-2248-8317
Period 1–31 May 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

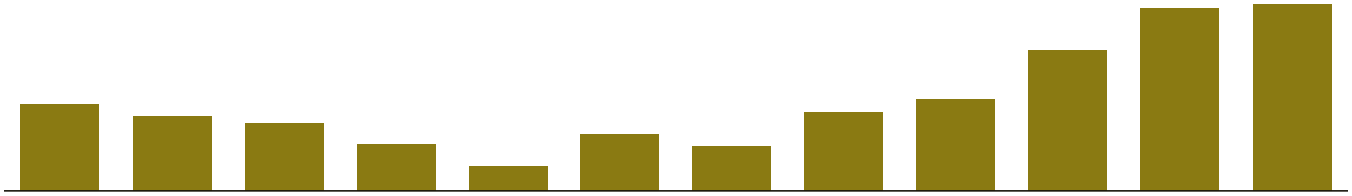

Opening balance	Credits	Debits	Closing balance
129,788,522 s	**+1,536,907 s**	**-946,111 s**	**130,379,318 s**

Date	Description	Amount (s)	Balance (s)
03 May	ATM withdrawal: Callisto	-259,200	129,529,322
	The Teller records that you thanked the machine at Callisto. It said nothing back, and you appeared content with that. Ref. CIBT-3003-123B-4		
03 May	Deposit: Hall E	+543,463	130,072,785
	The auditors have been told that the deposit was credited 29 days before the relay sent it, which is not possible. The Bank has accepted the posting on the strength of the slip's date, and the auditors may wish to check the slip. Ref. CIBT-3003-3FB0-3		
15 May	Transfer to joint account	-355,957	129,716,828
	No charge was made for the second copy of the joint statement, since Faro Ishikawa-Blue had already read the first aloud at the counter and the second was needed only for the reading. The Bank counts a copy read aloud as a copy delivered. Ref. CIBT-3003-C5B5-7		
17 May	Turbulence Cover	-21,599	129,695,229
	The premium goes to the Hall E window folded in four, with the route written on the outside, so the counter can read it without asking. Ref. CIBT-3003-88DD-6		
20 May	Temporal Health Plan	-42,055	129,653,174
	Ganymede Heights Infirmary's first-aid room charged the plan for a bandage it did not apply, and the plan traced the bandage to the company's sports day, where your ankle was the claim. The reimbursement was paid in full, to the ankle, and the bandage has been struck from the file. Ref. CIBT-3003-CD83-0		
22 May	Payroll credit: Ganymede Heights Infirmary	+593,263	130,246,437
	The wage was rounded to the nearest whole second on the employee's own written instruction, which gave the reason as "it looks neater". The instruction is on file. It is the only one of its kind the auditors have seen. Ref. CIBT-3003-6B46-4		
22 May	ATM withdrawal: Callisto	-259,200	129,987,237
	3 Standard days withdrawn at the Automated Temporal Machine at Callisto, dispensed as cycles. The machine dispensed 0.968 cycle and printed a receipt for 1.000; it reported the shortfall itself, and the difference will be returned in the next cycle unless you tell us otherwise. Ref. CIBT-3003-E38D-2		
28 May	Slippage fee (Callisto, 9 transfers)	-8,100	129,979,137
	The 9 crossings were held 28 days at the relay while the relay and the Head Office each waited for the other to confirm that the transfers had left. Both agreed in writing on the 28th, and no fee applies to the hold. Ref. CIBT-3003-233A-5		
31 May	Interest at 3.70% APY	+400,181	130,379,318

Date	Description	Amount (s)	Balance (s)
	The period's rate was rounded to the nearest quarter of a percent in the posting, and on this balance the difference comes to 45 seconds, which the Bank has credited to you without being asked. Ref. CIBT-3003-C472-2		

Closing balance, month by month

Highest 130,379,318 s · lowest 106,380,021 s

June 3002 May 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
