Date	Description	Amount (s)	Balance (s)
05 Jul	Payroll credit: Interworld Post	+447,914	34,928,366
	The paying branch on this credit has been corrected. The wage was routed through London Sector by mistake. It came from Interworld Post, as the contract states, and only the route has been amended. Ref. CIBT-2986-1762-5		
08 Jul	Transfer to joint account	-268,748	34,659,618
	A transfer posted from London Sector arrives one Standard day after it leaves, because the joint account keeps two days in its books, one for each holder's world. The Bank has never found a reason to choose between them, and does not intend to start. Ref. CIBT-2986-14A6-7		
13 Jul	Deposit: Hall E	+4,164,574	38,824,192
	The Teller reads the note inside the envelope, which says "for the trip", and states that she has no idea which trip is meant. The sum is correct. She expects the trip will be too, and has credited the deposit with that expectation in mind. Ref. CIBT-2986-C6DC-3		
21 Jul	Turbulence Cover	-21,743	38,802,449
	Callisto's carriers keep no timetable, so the policy pays on the delay the passenger reports, and the report is checked against the Callisto clock, which is slow by one whole orbit. Ref. CIBT-2986-B811-7		
25 Jul	ATM withdrawal: London Sector	-172,800	38,629,649
	You decline the receipt at London Sector each time, and the machine prints it regardless. The Bank posts a copy by the next post, which you have not opened and which the Bank has not stopped sending. Ref. CIBT-2986-1361-0		
28 Jul	Memory Vault: box 62-539, quarter	-259,200	38,370,449
	When Interworld Post changed its name in 2982, box 62-539 kept the old one on its label, and the custodian has been asked to keep it so. The label is read aloud twice a year, and each time the name is one the firm no longer uses. Ref. CIBT-2986-E0F9-1		
31 Jul	Interest at 4.80% APY	+137,921	38,508,370
	The page showing the 31st interest was bound in from a later edition of the schedule, which gives the rate a different place in the table. The schedule has been pulled and the page replaced; the sum stands, and the depositor is asked to keep the later edition, which is correct about everything except the page number. Ref. CIBT-2986-FD0F-3

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
