Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
56,455,875 s	**+3,620,910 s**	**-639,801 s**	**59,436,984 s**

Date	Description	Amount (s)	Balance (s)
02 May	Payroll credit: Interworld Post	+447,914	56,903,789
	The Interworld Post office at London Sector sent its wage as a single lump of 30 days. The Teller has split it into one line per day so that each may be checked, and all 30 lines reconcile. Ref. CIBT-3003-8A45-4		
03 May	ATM withdrawal: London Sector	-86,400	56,817,389
	The machine at London Sector recorded the withdrawal against the local date, and the statement carried it across to ours a day early. The entry has been moved back to the day you stood at the screen. The balance on that day was never in question. Ref. CIBT-3003-7CAB-1		
05 May	Deposit: Hall E	+2,947,173	59,764,562
	You always bring a pencil to the counter and always leave it there. The officers keep the pencils in a tin with your name on the lid, and it is now the fullest tin at Hall E. Ref. CIBT-3003-A0EC-7		
07 May	Turbulence Cover	-25,453	59,739,109
	The standing order for the premium was changed in 2999 to fall due on the last crossing of each quarter, not the first. It has been paid on the last crossing of every quarter since, whether or not the quarter ended on one. Ref. CIBT-3003-8BD3-9		
27 May	Transfer to joint account	-268,748	59,470,361
	Monthly interest on the joint account is divided between the two holders to the nearest second. Where the division does not come out even, the remainder is left in the account, where both holders can see it. Ref. CIBT-3003-B7C2-6		
28 May	ATM withdrawal: London Sector	-259,200	59,211,161
	The statement previously read 259,200 as the sum withdrawn. That was the sum requested. The sum paid was 3 Standard days, and the difference was never taken from your balance, so the figure on this line is the one to keep. Ref. CIBT-3003-9207-8		
31 May	Interest at 4.80% APY	+225,823	59,436,984
	You ask the Teller at Hall E what your interest is on each visit, and the Teller tells you each time, to the second, without looking at the screen. You have not yet asked how. Ref. CIBT-3003-C389-9		

Closing balance, month by month

Highest 59,436,984 s · lowest 33,663,690 s

June 3002 May 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
