Period 1–30 June 3012
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
57,400,156 s	**+3,247,739 s**	**-463,913 s**	**60,183,982 s**

Date	Description	Amount (s)	Balance (s)
02 Jun	Slippage fee (Svalbard, 6 transfers)	-3,600	57,396,556
	A crossing from Hall E this month was made against a receiving clock that had been read in advance, as though the seconds had not yet slipped. The fee has been charged on the reading that arrived first, and the order in which the readings came has been recorded. Ref. CIBT-3012-2AE0-0		
04 Jun	Payroll credit: Interworld Post	+447,914	57,844,470
	Interworld Post has changed its remitting office, and the wage now comes through Svalbard rather than the old relay. The rate and the amount are unchanged, but the statement carries a new reference, which you should keep. Ref. CIBT-3012-033E-7		
09 Jun	Transfer to joint account	-268,748	57,575,722
	Uma Drummond rounds every figure up to the next whole second when saying it aloud, and rounds it back down when writing it, so the sum is always spoken one way and entered another. The two versions have been compared, and they agree. Ref. CIBT-3012-1D37-1		
20 Jun	Turbulence Cover	-18,765	57,556,957
	You have never claimed for a delay of more than 16 minutes. The underwriters have noticed the pattern and written to say they consider it a courtesy, and have asked you to stop. Ref. CIBT-3012-100E-2		
21 Jun	Deposit: Hall E	+2,570,225	60,127,182
	The scale at the counter read 29 d 17:57:05, the sealed envelope said the same, and the officer has written the figure on the slip in capitals so that nobody counts it again. Ref. CIBT-3012-7B7B-0		
27 Jun	ATM withdrawal: Svalbard	-172,800	59,954,382
	A draw of 2 Standard days is taken from 8564-2746-5708 every other month at Svalbard, as the standing order sets out, and the months in between are left to the machine's discretion. Ref. CIBT-3012-350B-6		
30 Jun	Interest at 4.80% APY	+229,600	60,183,982
	The Teller has written on the back of the copy, which is held with a clip with a pencilled figure written on its label, that the figure was worked from the wrong morning's balance. She regrets the error, and the correct balance is shown here, with the sum it produces. Ref. CIBT-3012-EBA5-1		

Closing balance, month by month

Highest 60,183,982 s · lowest 46,563,601 s

July 3011 June 3012

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
