Date	Description	Amount (s)	Balance (s)
07 Jan	Payroll credit: Titan Methane Works	+92,961	8,980,383
	You arrive at the Hall E window on the morning the wage is due and ask only whether it has come, never how much. The window has never once had to say no. Ref. CIBT-3003-C250-6		
07 Jan	Slippage fee (Mars Station, 7 transfers)	-4,200	8,976,183
	A hum from the relay at Mars Station is, the Teller says, the sound of it working hard, and the fee goes up in the week it does so. The Bank has not confirmed the hum but has not disputed the fee. Ref. CIBT-3003-CEE5-6		
16 Jan	Deposit: Hall E	+726,862	9,703,045
	The Ganymede deposit came in a sealed tube, which the window opened before two officers and a relay operator who had not expected to be asked. The sum was credited in full, and the tube is filed with the slip. Ref. CIBT-3003-4C90-2		
26 Jan	ATM withdrawal: Mars Station	-259,200	9,443,845
	The Mars Station machine prints the local count first and the Earth figure beneath it, in a smaller type, for visitors who have not yet learnt that they are visitors. You have read both and said nothing, which the custodian records as a yes. Ref. CIBT-3003-1F73-3		
27 Jan	ATM withdrawal: Mars Station	-259,200	9,184,645
	A withdrawal made on the 27th was returned to the counter the same afternoon, unopened, with a note reading only "not today". It was made again the following day, and the note was not repeated. Ref. CIBT-3003-C186-4		
31 Jan	Interest at 3.50% APY	+25,921	9,210,566
	You have not withdrawn interest once since 2998, and each quarter it is posted back to the balance and begins to earn in its own right. The officer at Hall E calls this compounding, and does not ask whether you intend it. Ref. CIBT-3003-0C76-2
