STATEMENT OF ACCOUNT

Standard Time Deposit

Lumi Bellweather
Unit 138, Pallas Ring 10

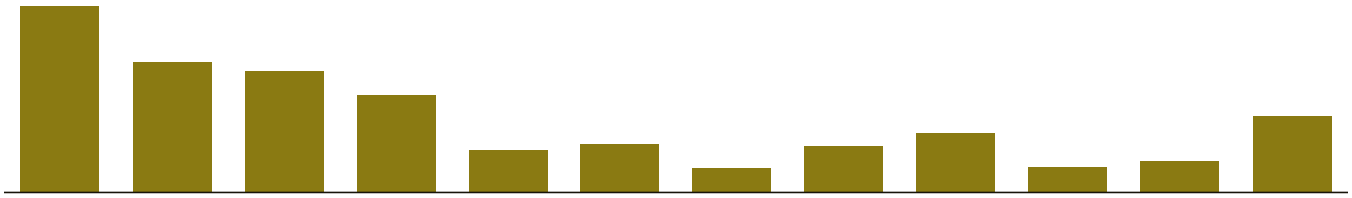

Account 8564-3324-1663
Period 1–30 June 2986
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
100,084,012 s	**+5,643,197 s**	**-343,280 s**	**105,383,929 s**

Date	Description	Amount (s)	Balance (s)
05 Jun	Turbulence Cover	-17,581	100,066,431
	You take the earliest connection every time and have never once claimed on it. The underwriter describes this as trust. The Bank describes it as a long run of luck, and prefers that word because it can be counted. Ref. CIBT-2986-9404-6		
05 Jun	Deposit: Hall E	+4,791,774	104,858,205
	A rounding difference of 7 seconds was found on this deposit when it was checked. It was credited in your favour, as the rule requires for any difference that runs the depositor's way; differences the other way are kept by the Bank, and there were none. Ref. CIBT-2986-012A-9		
11 Jun	Transfer to joint account	-325,699	104,532,506
	The joint transfer is rounded to the whole second in the holders' favour on the way in and against them on the way out, so the account is always a second richer when the sum arrives than when it leaves. Both holders have asked that the second be given to the charity of their choice. Ref. CIBT-2986-F6A1-5		
16 Jun	Payroll credit: the Lagrange Four Commissary	+542,831	105,075,337
	Under the rounding rule each wage is paid to the whole cycle and the remainder is carried forward. The remainders add up through the year, and in the twelfth month they come to one whole cycle, which is credited with the December wage. Yours came to 0.954 in December, shown on the line below. Ref. CIBT-2986-6CA6-7		
30 Jun	Interest at 3.70% APY	+308,592	105,383,929
	The auditors compared the interest with the rate schedule for 2985 and found it followed. They then compared the schedule with the rate, and found that followed too, which they said they had not expected. Ref. CIBT-2986-BC8D-4

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
