Date	Description	Amount (s)	Balance (s)
02 May	Transfer to own account: Mars Station	-2,464,953	95,594,084
	The sundry was held 31 days at Mars Station while the desk confirmed that the item had been received in the correct year. The two desks agreed the calendar between them, and the sundry was posted once they had. Ref. CIBT-2997-6409-0		
17 May	Turbulence Cover	-9,404	95,584,680
	Desk note: the cover on this policy is for time lost in transit, not for time gained. The clerk has confirmed this with two officers, once for the policy and once for the holder, who asked which was which. Ref. CIBT-2997-CB1A-6		
20 May	Transfer to joint account	-325,699	95,258,981
	The joint transfer on the 20th was delayed 28 days by a rail strike at Mars Station. The holders have asked that the strike be entered as a fact of the timetable, not a fault of the account, and the Bank has so entered it. Ref. CIBT-2997-9D9F-1		
21 May	Payroll credit: the Lagrange Four Commissary	+542,831	95,801,812
	Pay from the Lagrange Four Commissary at Mars Station follows the local day, so the last credit of the month lands 31 days into the next. The Bank was asked to treat the month as the local one, and declined, politely. Ref. CIBT-2997-2FA5-7		
31 May	Interest at 3.70% APY	+302,348	96,104,160
	Mars Station rounds its interest down to the whole sol and sends the remainder to the suspense line, where it is held for a depositor not yet identified. Your share of the remainder has been credited to this account as a courtesy, and the branch asks that it not be spent in one place. Ref. CIBT-2997-B8C9-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
