| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 02 Jun | Transfer to joint account | -122,500 | 27,461,502 |
| | The mandate was held at Hall E for 31 days after one holder's name was corrected from an earlier spelling that the register had kept. The transfer was made on the 2nd with the name as it now stands. Ref. CIBT-2991-3E4A-0 | | |
| 07 Jun | Slippage fee (Phobos, 6 transfers) | -5,400 | 27,456,102 |
| | The Phobos relay counts in sols, and every crossing you made was turned into Standard seconds at the posted rate before the fee was taken. That is why the figure looks so exact. Ref. CIBT-2991-FACF-5 | | |
| 24 Jun | Payroll credit: Cloudport Aerostat Lines | +204,167 | 27,660,269 |
| | Wages from Cloudport Aerostat Lines reached the Mars desk at Phobos a day early, the Mars clock being the longer of the two. The desk has posted them on the day they were earned rather than the day they were sent, and has said so in a note that wants no reply. Ref. CIBT-2991-7240-8 | | |
| 29 Jun | Transfer to own account: Phobos | -1,013,060 | 26,647,209 |
| | The transfer from Zeno Bellweather was keyed with the sender's account in the recipient's field, which is why it sat at the Phobos desk for 29 days. The field has been corrected, and the sum has reached 8564-4090-1663 as sent. Ref. CIBT-2991-55B7-0 | | |
| 30 Jun | Interest at 3.40% APY | +78,154 | 26,725,363 |
| | Held 30 days, the interest waited on a balance that had been sent to the Authority for its Open Ledger publication. The Authority published it, then asked for the interest to be published too, and the interest has now been posted in the Authority's type. Ref. CIBT-2991-0355-8 | | |

## Closing balance, month by month

July 2990 June 2991

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
