Period 1–31 January 2999
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
17,200,608 s	**+252,902 s**	**-1,850,490 s**	**15,603,020 s**

Date	Description	Amount (s)	Balance (s)
16 Jan	Transfer to joint account	-122,500	17,078,108
	Cloudport Aerostat Lines pays a supplement into the joint account on the day its first shift ends, and each of you receives a letter of thanks addressed to the account. The letters are filed under the account, which has never answered them. Ref. CIBT-2999-6607-2		
22 Jan	Payroll credit: Cloudport Aerostat Lines	+204,167	17,282,275
	The Cloudport Aerostat Lines transfer was split between your two accounts at the counter, on a clean slip, and the officer said the arithmetic was the only part of it that had been difficult. Both halves are correct. Ref. CIBT-2999-1668-4		
26 Jan	Transfer to own account: Mars Station	-1,727,990	15,554,285
	The sundry slip is left on the counter with one corner turned down. The officers have come to read this as a request to hear the total before anything else is said. Ref. CIBT-2999-C24B-6		
31 Jan	Interest at 3.40% APY	+48,735	15,603,020
	The statement shows interest accrued to the close of the Pallas Ring 10 day. The balance on your card does not include it, since the card reads the balance at the instant of a withdrawal, and an instant does not contain a day's interest. The two agree within 34 seconds, which the card calls a tolerance. Ref. CIBT-2999-17AE-9		

Closing balance, month by month

Highest 23,043,897 s · lowest 12,578,846 s

February 2998 — January 2999

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
