Period 1–30 June 2962
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
137,158,112 s	**+1,561,533 s**	**-5,021,215 s**	**133,698,430 s**

Date	Description	Amount (s)	Balance (s)
04 Jun	Turbulence Cover	-24,863	137,133,249
	The claim was for a delay that began a minute before the policy did. The underwriter checked which came first and found the policy's start time written on the first page, after the delay had begun. The claim was paid, the underwriter reasoning that a delay already under way is still a delay. Ref. CIBT-2962-BB10-0		
06 Jun	ATM withdrawal: Io	-172,800	136,960,449
	A withdrawal of 2 Standard days was refused at Io because the Teller on duty did not recognise the signature. The Teller has been told it was a mistake, and has accepted that the mistake was hers. Ref. CIBT-2962-A2BA-7		
16 Jun	Transfer to own account: Io	-4,650,752	132,309,697
	A sundry from Io, where the Authority's clock order has moved the local day by a few hours. The branch has entered the charge under the old day, as it is entitled to, and the entry has not been moved. Ref. CIBT-2962-35DA-8		
17 Jun	Payroll credit: Harbourfront Shipping	+1,104,340	133,414,037
	An earlier wage line was shown in cycles and should have been in seconds. It has been restated in seconds. The total is the same, although the figure now runs to a good many more digits. Ref. CIBT-2962-BF8A-8		
27 Jun	ATM withdrawal: Io	-172,800	133,241,237
	On the 27th the machine at Io offers you the draw it offered last month. You take it, and the machine is left with the impression that you have never once been surprised by it. Ref. CIBT-2962-8906-6		
30 Jun	Interest at 4.00% APY	+457,193	133,698,430
	A fraction of a second was lost when the interest was converted from cycles, because the conversion table was printed one line too early. The line has been reprinted, and the second is returned, with the Bank's compliments on its arithmetic. Ref. CIBT-2962-267B-6

Highest 137,158,112 s · lowest 74,523,068 s

July 2961 June 2962

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
