Period 1–31 October 2965
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
150,857,881 s	**+8,475,728 s**	**-453,081 s**	**158,880,528 s**

Date	Description	Amount (s)	Balance (s)
05 Oct	ATM withdrawal: Luna	-172,800	150,685,081
	Faro Inglewood-Marchetti signed the Luna slip on the 5th under the name of the machine. The Bank records this as a formality, and the machine, we are told, regards it as a courtesy. Ref. CIBT-2965-303A-9		
08 Oct	Payroll credit: Harbourfront Shipping	+1,104,340	151,789,421
	The employer's office has sent a corrected statement of the 28 days it paid for in error. The overpayment has been taken back from this credit, and the employer asks that the error not be repeated, which the Bank has passed on without comment. Ref. CIBT-2965-58D5-4		
18 Oct	Turbulence Cover	-19,881	151,769,540
	The claim for 44 minutes on the 18th was checked against the manifest and the underwriter's own log, and the two auditors initialled the agreement in different inks. Ref. CIBT-2965-45A9-1		
25 Oct	Slippage fee (Luna, 4 transfers)	-1,200	151,768,340
	A crossing of 4 transfers was logged at Luna on a date the relay has no record of, and it has been charged all the same. The relay says the date is its own affair. Ref. CIBT-2965-3F6C-6		
26 Oct	Deposit: Hall E	+6,868,529	158,636,869
	Auditors' note: the counter's tally is in pencil, the slip is in ink, and the envelope is in a third hand that the auditors have been unable to place. All three total 6,868,529, which they describe as a rare unanimity between parties who have never met. Ref. CIBT-2965-CBF0-5		
27 Oct	Memory Vault: box 85-427, quarter	-259,200	158,377,669
	Humidity on box 85-427 is rounded to the nearest whole point, not the tenth, because the sub-level gauge reads in whole points and has never been known to read otherwise. The gauge has been asked, and has not disagreed. Ref. CIBT-2965-ADBB-9		
31 Oct	Interest at 4.00% APY	+502,859	158,880,528
	Your interest was credited on the 31st at Luna, where the day is set by the station's own sun, so the day it was credited was shorter than yours and the difference of 5 seconds was taken off as the station's charge. The charge is shown on its own line, and the sun has been informed. Ref. CIBT-2965-6A77-3

November 2964 October 2965

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
