Mara Ravensworth-Wetherby
Unit 245, Pallas Ring 10

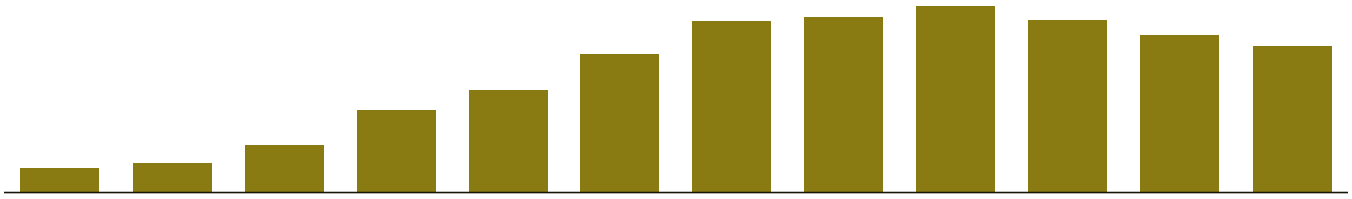

Account 8564-4142-8708
Period 1–30 June 2993
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
131,280,844 s	**+1,541,942 s**	**-5,509,688 s**	**127,313,098 s**

Date	Description	Amount (s)	Balance (s)
02 Jun	ATM withdrawal: Venus	-172,800	131,108,044
	Your withdrawal of 2 Standard days at the Venus machine was drawn on the account your employer pays into, at the employer's request, so that the wages are available on the day they arrive. Ref. CIBT-2993-4A36-7		
10 Jun	ATM withdrawal: Venus	-259,200	130,848,844
	The amount on the 10th was first sent as 3 Standard days, which was the machine's estimate, made before the relay had confirmed the balance. The confirmed sum is the one on this line, and the estimate has been struck from the record. Ref. CIBT-2993-7BC3-4		
10 Jun	Slippage fee (Venus, 4 transfers)	-1,200	130,847,644
	The fee on this crossing was charged on a clock that had drifted 22 seconds in the relay's favour. The drift is in the day's drift report and nowhere on your statement, which is where the Bank thinks it belongs. Ref. CIBT-2993-4C81-9		
22 Jun	Transfer to own account: Venus	-5,076,488	125,771,156
	The sundry charge on this statement is the same as the one on the last, down to the seconds. The Teller asks whether you would like the figure printed in the margin, so that you may check it without reading the rest. Ref. CIBT-2993-B693-3		
24 Jun	Payroll credit: Harbourfront Shipping	+1,104,340	126,875,496
	Callisto's day is longer than the Standard day, so the Harbourfront Shipping credit was split across two posting dates. No fee is taken for the split. The line carries a small mark beside it, which the officers say is the day's own handwriting. Ref. CIBT-2993-8F43-4		
30 Jun	Interest at 4.00% APY	+437,602	127,313,098
	Interest is worked on the Standard day and posted by the clock at Hall E, which keeps its own, so the interest line and the Standard reckoning are never quite the same width. The figures have been placed side by side so that the difference can be seen without being explained. Ref. CIBT-2993-5E27-2		

Closing balance, month by month

July 2992 June 2993

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
