Date	Description	Amount (s)	Balance (s)
02 May	Slippage fee (Montréal Sector, 8 transfers)	-2,400	151,071,852
	Recommended by internal audit: that the relay at Montréal Sector report its own drift each morning, rather than the Bank estimating it each night. The relay has declined, saying that it knows its own drift and does not need the Bank to know it on its behalf. Ref. CIBT-3002-96A0-1		
11 May	Transfer to own account: Montréal Sector	-5,484,384	145,587,468
	A sundry for the Authority's stamp duty is paid in the Authority's own seconds, and the Bank converts them at the rate the Authority published that morning. The rate has never once been found in the same place twice. Ref. CIBT-3002-D286-5		
31 May	Interest at 4.00% APY	+503,580	146,091,048
	Interest is calculated to the tenth of a second and paid to the whole second. The tenths are collected each year into a line of their own, which the officer calls the depositor's fortune, though nobody has yet found a way to spend it. Ref. CIBT-3002-8801-6		

Closing balance, month by month

June 3001 May 3002

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
