Opening balance	Credits	Debits	Closing balance
32,190,868 s	**+670,537 s**	**-259,200 s**	**32,602,205 s**

Date	Description	Amount (s)	Balance (s)
14 Dec	Deposit: Hall E	+326,625	32,517,493
	A fortnightly sum comes in from Soren Wetherby, with a note of a few words. This fortnight's note was the same length as the last, and the officer has stopped reading it aloud. Ref. CIBT-3000-C602-4		
20 Dec	ATM withdrawal: Kepler Ring	-172,800	32,344,693
	The Titan Dome machine is serviced through the lake season, which the Bank has been asked to note as part of the reason this withdrawal took 29 Standard days to clear. Ref. CIBT-3000-8134-3		
21 Dec	Payroll credit: Interworld Post	+255,388	32,600,081
	Interworld Post has changed its remitting office, and the wage now comes through Kepler Ring rather than the old relay. The rate and the amount are unchanged, but the statement carries a new reference, which you should keep. Ref. CIBT-3000-7AD4-5		
22 Dec	ATM withdrawal: Kepler Ring	-86,400	32,513,681
	You take One Standard day out on the morning the local market opens, and it is kept in a shoebox marked in pencil "Mum's receipts" until the afternoon, when the shops are open and you are ready to spend it. Ref. CIBT-3000-FBF0-9		
31 Dec	Interest at 3.30% APY	+88,524	32,602,205
	The rate printed on the statement for the 31st was set in a smaller type than the rest of the line, and the depositor took the small figure as the true one for a fortnight. The type has been enlarged, and the rate is the same as it was. Ref. CIBT-3000-6C01-3		

Closing balance, month by month

January 3000 December 3000

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
