Date	Description	Amount (s)	Balance (s)
01 Jan	Deposit: Hall E	+2,007,432	54,844,816
	Your deposit spent 31 days in the relay's queue behind a consignment of tea, which the relay's officers consider to have been ahead of you in the order of things. They have said so several times, with feeling. Ref. CIBT-3012-D97A-3		
08 Jan	ATM withdrawal: Mars Station	-86,400	54,758,416
	The machine at Mars Station dispensed 0.953 sol and printed the full sum on its receipt. The custodian, who has read a great many receipts from that machine, recommends that you keep yours somewhere dry. Ref. CIBT-3012-5A5C-6		
12 Jan	Turbulence Cover	-22,388	54,736,028
	Premium for the Mars Station route, paid in sols. The policy pays in minutes, and the two have been reconciled at the posted rate. The branch asks us to say that its own carriers do not run to schedule and have never claimed that they do. Ref. CIBT-3012-0CEA-7		
14 Jan	ATM withdrawal: Mars Station	-259,200	54,476,828
	You have used the machine at Mars Station on the 14th of every month since it was installed, each time taking the same denomination and walking away before the receipt had finished printing. The officer on the concourse has come to regard this as a settled routine. Ref. CIBT-3012-6D90-5		
31 Jan	Interest at 4.90% APY	+215,752	54,692,580
	The interest on your deposit is credited on the 31st of each month. The deposit was opened in 3008 and has not been touched since. It arrives on time, and the Teller says it is the most reliable thing about you. Ref. CIBT-3012-C39A-8

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
