Period 1–31 March 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
714,973,048 s	**+9,501,870 s**	**-103,954,233 s**	**620,520,685 s**

Date	Description	Amount (s)	Balance (s)
13 Mar	ATM withdrawal: Luna	-86,400	714,886,648
	The machine offered the withdrawal in days and then, after a pause, in seconds, and you chose seconds. The Bank has no record of the pause, and the machine's log says only that it was thinking. Ref. CIBT-3003-3EC2-5		
15 Mar	ATM withdrawal: Luna	-172,800	714,713,848
	The machine at Luna gave you 0.950 day too little. You did not notice, and the Teller did not tell you. The Teller has decided it is not her place to explain this to the machine. Ref. CIBT-3003-A80D-5		
19 Mar	Transfer to own account: Luna	-103,690,833	611,023,015
	Exact coins, counted on the counter in rows of five, are how your sundries are paid, and the officer has stopped counting them back, on the understanding that the rows are the receipt. Ref. CIBT-3003-9BAF-6		
23 Mar	Slippage fee (Luna, 7 transfers)	-4,200	611,018,815
	Each month the same 7 transfers leave Hall E for Luna on the same standing order, and each pays the same fee. The statement repeats it below in a column that has never once needed correcting. Ref. CIBT-3003-F576-0		
24 Mar	Payroll credit: Interworld Post	+6,701,559	617,720,374
	Interworld Post keeps its pension top-up on the same line as your wage, because the firm has never seen a reason to separate its wages from its kindness, and the Bank has not been asked to separate them either. Ref. CIBT-3003-B9F6-5		
31 Mar	Interest at 4.70% APY	+2,800,311	620,520,685
	The Venus Cloudport credits interest once in each local day, and a local day is long enough that the posting clerk has a week's leave after every one. The deputy posts the interest in the meantime, and it is not known whether the deputy has the same figures in mind. Ref. CIBT-3003-6E71-5		

Closing balance, month by month

April 3002 March 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
