BANK OF TIME

STATEMENT OF ACCOUNT

Standard Time Deposit

Sunniva Jaramillo
Unit 24, Pallas Ring 10

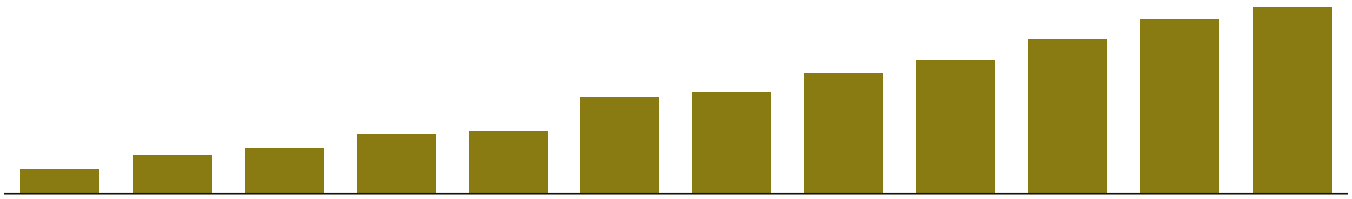

Account 8564-4635-4321
Period 1–31 August 2992
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
30,102,872 s	**+1,146,525 s**	**-267,736 s**	**30,981,661 s**

Date	Description	Amount (s)	Balance (s)
08 Aug	Deposit: Hall E	+878,959	30,981,831
	You deposit a single coin each visit and ask for a receipt for it, which the Bank issues without charge and files without reading. Ref. CIBT-2992-E48E-0		
12 Aug	ATM withdrawal: London Sector	-172,800	30,809,031
	Audit query: the withdrawal at London Sector was authorised by a token issued in 2990, and the token is still valid. The Committee notes that tokens do not expire on this machine, and asks that this be minuted. Ref. CIBT-2992-4E7C-7		
15 Aug	ATM withdrawal: London Sector	-86,400	30,722,631
	Standing withdrawals of this size have been made from London Sector on your behalf since 2991. The machine knows the sum by now, and the teller has taken to passing the slip across without being asked. Ref. CIBT-2992-AFF4-1		
17 Aug	Turbulence Cover	-8,536	30,714,095
	Turbulence Cover, a further 51 minutes of delay at London Sector, paid without the usual letter. This is the first claim you have filed in 2 years to be paid without one, and the Bank has not been asked to explain why. Ref. CIBT-2992-DFA5-0		
23 Aug	Payroll credit: Brymar College	+172,241	30,886,336
	Overtime from Brymar College, worked on London Sector and paid in days. Overtime is rounded to the nearest whole unit, which is why the figure is slightly below your timesheet's sum. Ref. CIBT-2992-356B-8		
31 Aug	Interest at 3.80% APY	+95,325	30,981,661
	You have asked for the interest to be checked by hand on the first of each period, against a card you keep in your own hand. The Bank does so, and the result has never differed from the machine's. The officer now writes the figure in the margin before being asked. Ref. CIBT-2992-72EE-7		

Closing balance, month by month

Highest 30,981,661 s · lowest 18,957,813 s

September 2991 August 2992

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
