Date	Description	Amount (s)	Balance (s)
04 Jun	Transfer to own account: Mars Station	-44,932,369	279,063,049
	Charged by Mars Station, which bills for the paper a transfer is written on, counted in sols, that being the unit paper is counted in on that world. The Bank has converted the charge into seconds and returned the remainder to the office with a covering note. Ref. CIBT-3003-6CBA-0		
17 Jun	Slippage fee (Mars Station, 6 transfers)	-1,800	279,061,249
	You have crossed to Mars Station every 37 days since 3001, always in the same second of the local morning. The relay now holds your transfer for that second, and the fee for the wait is still the fee for the crossing. Ref. CIBT-3003-B1D5-4		
18 Jun	Transfer to joint account	-1,832,489	277,228,760
	The holders have taken to making their joint transfer on the same day of each month as the day they first opened the account, though neither has said why. The officer has not asked, as the Bank does not ask about habits it approves of. Ref. CIBT-3003-1E00-2		
21 Jun	Payroll credit: Interworld Post	+3,054,149	280,282,909
	The wage from Interworld Post lands at Hall E a few minutes before the business day opens, and the same officer logs it every month. The Bank has noticed the pattern and has not thought it needed a name. Ref. CIBT-3003-FE37-3		
29 Jun	ATM withdrawal: Mars Station	-259,200	280,023,709
	Your monthly withdrawal rises by 0.961 of a sol each year, a rise you asked for in 3000. The machine has applied it without comment since, and has never once needed reminding. Ref. CIBT-3003-729C-7		
30 Jun	Interest at 4.40% APY	+1,187,983	281,211,692
	The period's interest was paid a day after the rest of the statement, because the Clock Standards Board sat late on the 30th and its minutes had to be read into the record before the rate could be printed. The rate is the one the minutes approved, and the interest was paid in full. Ref. CIBT-3003-4D53-2

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
