Standard Time Deposit

Ama Halloran
Unit 52, Pallas Ring 10

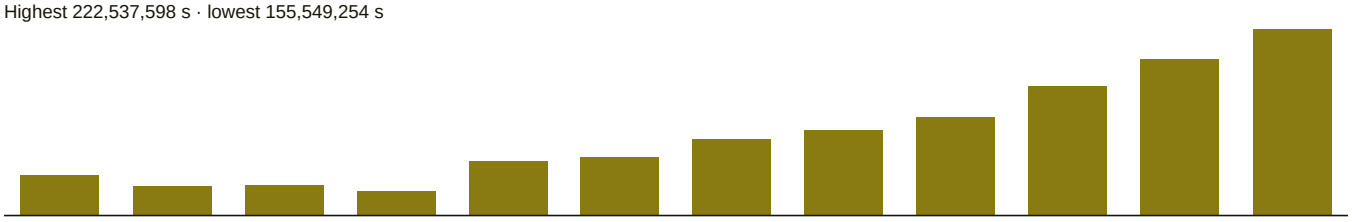

Account 8564-5134-8564
Period 1–31 October 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
209,893,793 s	+12,989,405 s	-345,600 s	222,537,598 s

Date	Description	Amount (s)	Balance (s)
13 Oct	Deposit: Hall E	+10,312,639	220,206,432
	The envelope came in with a child allowed to hold the envelope for the last few steps, and was counted at the window as though it had come straight from your hand. The slip was in order, and the figure in the margin agreed with the count, which is all the window asks. Ref. CIBT-3003-30BD-1		
17 Oct	Mech Veterans' Time Pension	+446,069	220,652,501
	The upgrade allowance is paid out of the veterans' reserve, not out of the pension, so the pension itself arrives whole. The allowance's own rounding, 0.961 of a day, is shown beneath it and carried to next month. Ref. CIBT-3003-6F9C-6		
25 Oct	ATM withdrawal: Vancouver Sector	-86,400	220,566,101
	The withdrawal was held 31 Standard days at Vancouver Sector while a second relay was found to confirm the first. The first had been confirmed by an operator who had since gone to another world, and the second confirmation came down the line within the hour. Ref. CIBT-3003-684A-5		
27 Oct	ATM withdrawal: Vancouver Sector	-259,200	220,306,901
	A withdrawal at Vancouver Sector is paid out in whole days, so 0.973 of one day is left in the machine. It is kept there for the next customer, who is, for the purposes of the ledger, the Bank. Ref. CIBT-3003-2F36-3		
30 Oct	Payroll credit: Cloudport Aerostat Lines	+1,566,034	221,872,935
	Cloudport Aerostat Lines pays in days on its own world and sends each credit on the employer's day, which runs 28 Standard days ahead of yours. The Bank files the credit under the day it arrived and leaves the difference to the employer's calendar. Ref. CIBT-3003-8712-8		
31 Oct	Interest at 3.80% APY	+664,663	222,537,598
	A credit of 52 seconds of interest was entered twice, once on the 31st and once the day after. The second entry has been reversed; the first is correct, and the balance on the 31st stands as printed. Ref. CIBT-3003-589F-4		

Closing balance, month by month

November 3002 October 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
