Opening balance	Credits	Debits	Closing balance
94,597,758 s	**+3,402,903 s**	**-636,464 s**	**97,364,197 s**

Date	Description	Amount (s)	Balance (s)
02 May	Slippage fee (Callisto, 4 transfers)	-1,200	94,596,558
	You send the 4 transfers in the order you thought of them, not the order you need them, and the relay has been reordering them every month since 3021. The reordering costs a few seconds, and you have never asked for it to be explained. Ref. CIBT-3022-1A04-3		
03 May	ATM withdrawal: Callisto	-172,800	94,423,758
	Montréal Sector Transit pays into this account on the 3rd, and you withdraw from it at Callisto the same afternoon, which the machine has learned to expect. It asked this time for the sum in cycles, since the payroll office says that is how the wages are paid. Ref. CIBT-3022-F31D-7		
05 May	Turbulence Cover	-13,872	94,409,886
	Montréal Sector Transit pays the premium on this policy from your travel allowance, and the allowance is recalculated each quarter by a clerk who has never taken a journey. The clerk's figure has been correct every time, and the firm says that is the only reason it keeps him. Ref. CIBT-3022-F607-6		
16 May	Payroll credit: Montréal Sector Transit	+603,654	95,013,540
	The payroll transfer was held in the sealed bag the courier was not yet willing to open while the employer's office confirmed the sum, which it did on the 16th. The credit was posted the same afternoon, and the employer has asked that the confirmation be filed with this statement. Ref. CIBT-3022-AB90-5		
19 May	Deposit: Hall E	+2,476,040	97,489,580
	The coins from the jar were counted to the nearest 10 seconds before the slip was written, which leaves 0.977 of a second in the jar. The jar belongs to the window now, and its remainder has been poured into the reserve. Ref. CIBT-3022-90ED-1		
21 May	Transfer to joint account	-362,192	97,127,388
	The Teller says a joint account is a wager that two people will still be sitting at the same counter in fifty years, and that the Bank has taken the wager on both sides and is not permitted to say which it favours. Ref. CIBT-3022-5E7B-2		
28 May	ATM withdrawal: Callisto	-86,400	97,040,988
	A withdrawal of this size is usually spent before it is counted, the Teller says, and asks whether that was your intention. Nothing was recorded, so the question stays on the file. Ref. CIBT-3022-0839-1		
31 May	Interest at 4.10% APY	+323,209	97,364,197
	The interest line on the 31st carried the wrong period label, so the last three weeks appeared to have been paid twice. They were paid once, and the label has been corrected to say so. Ref. CIBT-3022-28CC-9

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
