Date	Description	Amount (s)	Balance (s)
16 Jun	Deposit: Hall E	+22,243,935	144,084,376
	At the Ceres dock the deposit is weighed on the ore scale before anyone counts it, since the scale is the only instrument on the station that nobody has ever argued with. The count followed the weight to the unit, and the dock regards that as the correct order of things. Ref. CIBT-2995-1C6B-3		
20 Jun	Temporal Health Plan	-22,524	144,061,852
	The session missed in the dust season at Ganymede was rebooked for the same hour on the following sol, so the cover is continuous and the hour is not. The plan has paid for the session, and the clinic has agreed to keep the hour in reserve. Ref. CIBT-2995-D6DF-7		
23 Jun	Transfer to joint account	-708,740	143,353,112
	The joint transfer due on the 23rd was made, as it is every month, by the second-last working day of the period. It has never been made early, and no one has asked it to be. Ref. CIBT-2995-844B-3		
30 Jun	Interest at 4.20% APY	+426,441	143,779,553
	The statement shows interest to the second. The balance itself is held to the tenth, so the figure printed is a rounding of the figure used. The difference goes to the Bank's favour in each month and to yours in each year, which is the arrangement the Bank describes as balanced. Ref. CIBT-2995-8D7C-3

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
