Date	Description	Amount (s)	Balance (s)
20 Jun	Transfer to own account: Mars Station	-3,950,870	27,986,142
	You asked whether the sundry could be backdated. The officer said it could not, then paused and asked which date you had in mind. It has been posted on the day you asked, which you both agreed was fair. Ref. CIBT-3022-887B-2		
24 Jun	Payroll credit: Cloudport Aerostat Lines	+184,940	28,171,082
	You count the Cloudport Aerostat Lines credit at the counter in whole sols, then ask for the fraction in seconds, and the officer gives it to you with the air of someone who has been asked the same question for years. Ref. CIBT-3022-988C-5		
24 Jun	ATM withdrawal: Mars Station	-259,200	27,911,882
	The Teller weighed the cash in her palm before she counted it, which she does not usually do, and said it weighed exactly what it should. She was not sure whether this was a compliment to the cash. Ref. CIBT-3022-702E-1		
24 Jun	Slippage fee (Mars Station, 2 transfers)	-1,800	27,910,082
	The 2 transfers to 8564-7880-8160 are sent on the 24th of each month by the same route, so the slippage is the same figure every time, 0.30 s. The officer has entered it as a standing charge and will not raise it with you again. Ref. CIBT-3022-4AFD-4		
30 Jun	Interest at 3.90% APY	+103,795	28,013,877
	Interest on your pay sat in the account for 30 days at the Cloudport Aerostat Lines rate, because Cloudport Aerostat Lines pays its staff in arrears and the account was credited in advance. The arrears have since been paid. The interest earned in advance is yours, which is the one arrangement Cloudport Aerostat Lines has never wished to explain. Ref. CIBT-3022-CE62-9

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
