Bodhi Nakashima
Unit 342, Pallas Ring 10

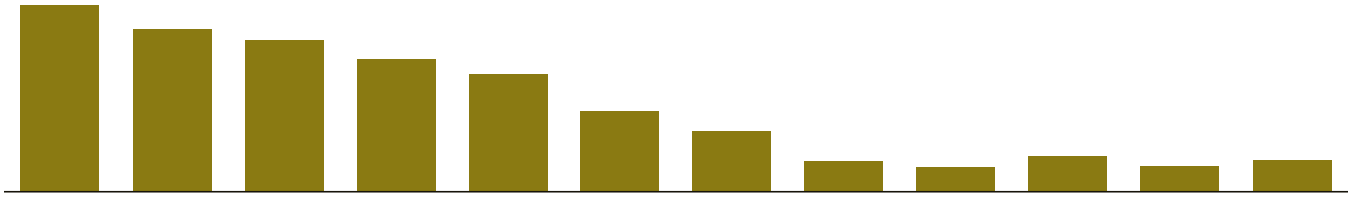

Account 8564-6467-9708
Period 1–31 July 2976
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
1,744,083,828 s	**+31,413,458 s**	**-5,442,618 s**	**1,770,054,668 s**

Date	Description	Amount (s)	Balance (s)
06 Jul	Payroll credit: the Authority Records Office	+8,639,031	1,752,722,859
	Receiving charge waived on this credit. The staff transfer rules say a charge taken from a wage must be returned to the wage before it is counted, and that has been done, to the second. Ref. CIBT-2976-EA0A-3		
17 Jul	ATM withdrawal: Mars Station	-172,800	1,752,550,059
	Your withdrawal at Mars Station is the last thing the machine does before the custodian goes off shift, and he waits for it with his coat on. He says it is the only transaction on the concourse he is paid to watch. Ref. CIBT-2976-AA21-5		
19 Jul	Deposit: Hall E	+15,943,433	1,768,493,492
	The signature on the slip matches a holder's signature at Hall E in a register that closed centuries ago, down to a blot at the foot of the last line. The officer has filed the two slips together and has not been asked to explain them. Ref. CIBT-2976-AC2C-5		
20 Jul	ATM withdrawal: Mars Station	-86,400	1,768,407,092
	A withdrawal of One Standard day at Mars Station was made on a card whose number is one digit away from Account No. 0's. The machine paid it, the branch has no record of issuing the card, and the auditors have chosen, for the present, not to ask which digit. Ref. CIBT-2976-A76E-9		
25 Jul	Transfer to joint account	-5,183,418	1,763,223,674
	A transfer of 5,183,418 to the joint account was rounded down by one second, as the rule requires whenever a figure falls on the half. The second has been credited to the account and charged to neither holder. Ref. CIBT-2976-0C27-6		
31 Jul	Interest at 4.70% APY	+6,830,994	1,770,054,668
	Interest on Mars Station accrues on the station's own day, which runs a little slow, so the day's interest is posted in the morning rather than at close. It comes to the same sum by the end of the month, having taken a little longer to arrive. Ref. CIBT-2976-E0CA-5		

Closing balance, month by month

Highest 2,407,659,600 s · lowest 1,741,095,893 s

August 2975 July 2976

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
