Period 1–31 May 2995
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
21,495,667 s	**+232,182 s**	**-1,350,065 s**	**20,377,784 s**

Date	Description	Amount (s)	Balance (s)
04 May	Turbulence Cover	-26,248	21,469,419
	You claim for every delay in whole minutes and never round up. The underwriters have begun to use your figures as the standard for the route, and say they are the only figures on the file that agree with the timetable. Ref. CIBT-2995-F1D1-3		
11 May	ATM withdrawal: Mars Station	-259,200	21,210,219
	A line showed this withdrawal twice, once when the request was made and once when the machine confirmed it. The first line has been struck. The machine asked twice, and you answered once. Ref. CIBT-2995-EA27-6		
21 May	ATM withdrawal: Mars Station	-86,400	21,123,819
	Withdrawals at the Titan branch are paid in Titan hours, which run long, and the machine rounds them to the nearest Standard hour. Your 0.954 was rounded in your favour, which the machine calls a policy and the custodian calls a habit. Ref. CIBT-2995-339A-1		
26 May	Payroll credit: Titan Methane Works	+156,948	21,280,767
	The receiving fee on this credit from Titan Methane Works was waived. The payroll office has asked that its wages be treated as inbound family, a category the Bank has never been asked to recognise and has recognised for one month only. Ref. CIBT-2995-4E33-0		
26 May	Transfer to own account: Mars Station	-978,217	20,302,550
	The sundry on the 26th was a replacement token for box 46-478, but the token belonged to a box on the same sub-level, and both boxes are held by the same custodian. The charge has been divided between the two accounts in the same proportion as the boxes. Ref. CIBT-2995-A01E-8		
31 May	Interest at 4.20% APY	+75,234	20,377,784
	The staff bonus from Titan Methane Works is paid into this account each spring. The firm's pay office books it as interest because it prefers the word, and the Bank has followed the firm's wording on the line and not the wording of the scheme. Ref. CIBT-2995-8A47-5		

Closing balance, month by month

June 2994 May 2995

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
