Date	Description	Amount (s)	Balance (s)
02 Mar	ATM withdrawal: The Belt	-172,800	22,692,317
	The machine at The Belt is the one Kepler Ring Hydroponics uses to pay its staff, so four of your withdrawals fall on the same afternoon. The officer has entered them as a single outing, and the sums have been kept separate. Ref. CIBT-3022-B237-1		
10 Mar	ATM withdrawal: The Belt	-172,800	22,519,517
	The cash was returned to the tray by the machine itself, which had been holding it so long that it considered the holding a fee in its own right. The Bank has agreed, and the withdrawal has been posted without one. Ref. CIBT-3022-165A-0		
13 Mar	Transfer to own account: The Belt	-234,062	22,285,455
	A sundry at The Belt is charged by the local bell, which rings 46 times for a fee and once for a refund. This one rang once, and the officer at the window paid out before the bell had finished. Ref. CIBT-3022-4027-4		
16 Mar	Payroll credit: Kepler Ring Hydroponics	+131,178	22,416,633
	The employer's wages for 29 standard days arrive at the start of the month, because that is when its office begins its own. The employer apologises for the early hour. The Bank has no quarrel with the hour, only with the day it began on. Ref. CIBT-3022-95A3-5		
31 Mar	Interest at 3.80% APY	+72,406	22,489,039
	The interest for the 31st was held 30 Standard days at The Belt, because the local office's printer had run out of forms and the figure could not be set until a new run arrived. The figure was set on arrival, and the interest was paid in full. Ref. CIBT-3022-1B8D-8

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
