Date	Description	Amount (s)	Balance (s)
02 Mar	Lyric Licensing Desk	-68,323	2,118,235,282
	You have never once been late with the fee, and each year the Desk sends a letter of thanks, which you read at the counter and fold back into its envelope without comment. The envelopes have begun to stack. Ref. CIBT-3022-628C-6		
04 Mar	Payroll credit: Phobos Drydock	+5,691,942	2,123,927,224
	The Phobos Drydock credit was posted twice last month, once on arrival and once on the employer's advice, which followed a day later. The second entry has been taken back, and this month's line shows one wage, as the remittance advice does. Ref. CIBT-3022-B9EA-6		
13 Mar	Temporal Health Plan	-16,314	2,123,910,910
	Your premium is drawn by standing order on the 13th of each month, and has been drawn on that day since 3020. The plan now posts it a day early as a courtesy, and has asked whether you would like the courtesy extended to the cover as well. Ref. CIBT-3022-2595-2		
15 Mar	Transfer to joint account	-3,415,165	2,120,495,745
	Rounding on the joint account comes to 0.976 s a period, which is never more than that and is printed at the foot of the statement. The Bank has no objection to the rounding, and neither, the Teller says, has the account. Ref. CIBT-3022-8B6C-2		
25 Mar	Slippage fee (Mars Station, 7 transfers)	-2,100	2,120,493,645
	Phobos Drydock is charged slippage on the remittances it sends to your account. It pays the fee through its own books and asks the Bank to show the same figure on yours, so that both can say they were charged the same amount for the same second. Ref. CIBT-3022-9531-9		
30 Mar	ATM withdrawal: Mars Station	-172,800	2,120,320,845
	The withdrawal was keyed at Mars Station on its own day and reached our books 30 days later, on ours. The posting is the Head Office's and the withdrawal is the machine's, and the officer there has signed to say so in both calendars. Ref. CIBT-3022-B61A-3		
30 Mar	Transfer to own account: Mars Station	-62,948,991	2,057,371,854
	The fee for this service was keyed against the old schedule, and the difference is credited below. The new schedule took effect on the 30th, and the clerk who keyed the item had not yet been told. Ref. CIBT-3022-44AF-8		
31 Mar	Interest at 3.60% APY	+6,354,910	2,063,726,764
	The Mars Station branch credits interest by its own clock, which runs 0.965 slower than the Head Office's. The Bank has paid the difference rather than keep it, a practice the branch calls customary and the Audit Committee calls unusual. Ref. CIBT-3022-3254-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
