| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 01 Jun | Slippage fee (Nairobi Sector, 9 transfers) | -8,100 | 101,115,713 |
| | Montréal Sector Transit paid your share of the month's crossings in advance, and the fee was worked out at the rate for the month it was paid, not the one it was spent in. The difference of 2,400 seconds has been carried forward to your account. Ref. CIBT-2964-24DA-8 | | |
| 03 Jun | Payroll credit: Montréal Sector Transit | +1,078,453 | 102,194,166 |
| | The payroll office has written to ask whether the Bank can confirm your wage without first confirming your name. The Teller has confirmed both. She says the first was harder. Ref. CIBT-2964-7DF2-6 | | |
| 08 Jun | ATM withdrawal: Nairobi Sector | -172,800 | 102,021,366 |
| | The Nairobi Sector machine pays in days and reports in seconds. Your withdrawal of 172,800 was entered 31 days after it was made, when the local day had caught up with ours, and the sum did not change in the meantime, which the Bank regards as the machine's chief virtue. Ref. CIBT-2964-E1EA-5 | | |
| 13 Jun | Transfer to own account: Nairobi Sector | -16,089,581 | 85,931,785 |
| | Nairobi Sector still posts its sundries on paper before it posts them to the ledger. The slip went by hand from the sub-level to the counter, which took 30 Standard days and, the local officer reports, no hurry at all. Ref. CIBT-2964-1E07-4 | | |
| 30 Jun | Interest at 4.50% APY | +379,214 | 86,310,999 |
| | The posted rate was last set in 2963 and has been printed each month since, with a note in the Rate Committee's hand that the figure has not been reconsidered. The note is very small, and the hand has not changed. Ref. CIBT-2964-6D44-9 | | |

July 2963 June 2964

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
