Date	Description	Amount (s)	Balance (s)
07 May	Transfer to own account: Luna	-8,287,245	187,622,127
	A sundry on the 7th was raised by a holder whose name the system did not recognise, against an account the ledger lists as having no holder at all. The sum has been paid to the account, and the account has been left as it was found. Ref. CIBT-3000-97FE-6		
16 May	ATM withdrawal: Luna	-259,200	187,362,927
	On Luna a withdrawal is recorded when the cash leaves the dispenser, not when the card goes in, so the figure can be a second later than the one you saw on the screen. The dispenser is the authority on that world, and the Bank has accepted its figure. Ref. CIBT-3000-80FD-7		
20 May	ATM withdrawal: Luna	-86,400	187,276,527
	The One Standard day was ready at Luna after a 54-minute pause, because the concourse's power was being moved to the relay's supply. The power was restored, and so was your cash. Ref. CIBT-3000-5955-1		
24 May	Slippage fee (Luna, 5 transfers)	-4,500	187,272,027
	The relay at Luna had a fault in its queue, so your 5 crossings left out of order and arrived in the order sent. They are charged in the order received, which is the one rule the Bank and the relay have ever agreed on. Ref. CIBT-3000-9576-4		
25 May	Payroll credit: Montréal Sector Transit	+1,078,453	188,350,480
	Salary from Montréal Sector Transit, received on the 25th as before. You have taken the credit in one sum every month since the account was opened and have never asked for the fraction, so the branch has kept it for you in the account's margin, where it grows at the posted rate. Ref. CIBT-3000-7BB2-2		
31 May	Interest at 4.50% APY	+734,660	189,085,140
	Auditors' query on the 4.50% rate: the figure is the same on this statement as on the Head Office's copy. The question was whether the rate had been applied to the whole balance or only the part held for a full month. It was applied to the whole, and the auditors have initialled the answer. Ref. CIBT-3000-4A2E-1
