Opening balance	Credits	Debits	Closing balance
99,135,771 s	**+2,879,997 s**	**-175,800 s**	**101,839,968 s**

Date	Description	Amount (s)	Balance (s)
04 Jan	Slippage fee (Kepler Ring, 5 transfers)	-3,000	99,132,771
	The statement was printed before the 4th crossing was struck from the relay's books. The fee for it has been removed, and the transfer, which was never made, has not been charged. The statement came back with a postcard of a station that has since been closed, which the Bank has filed beside it. Ref. CIBT-3029-044B-4		
06 Jan	ATM withdrawal: Kepler Ring	-86,400	99,046,371
	The Kepler Ring machine sits in a cold alcove, and the notes it dispenses are a little stiff for the first minute. The custodian asks that you not hold this against the machine, which is doing its best in a bad position. Ref. CIBT-3029-6144-3		
15 Jan	ATM withdrawal: Kepler Ring	-86,400	98,959,971
	On the first morning of each quarter you ask for One Standard day, and then, before the cash comes out, ask the machine to read your account name back to you. The machine has learned to say it slowly, which you appear to need. Ref. CIBT-3029-6946-3		
16 Jan	Deposit: Hall E	+2,574,329	101,534,300
	The bearer's note was written in a hand the branch has seen before. It has asked to be filed with the rest of its family, and it has been. Ref. CIBT-3029-738D-6		
31 Jan	Interest at 3.70% APY	+305,668	101,839,968
	Earned at Kepler Ring, the interest crossed to us in 28 days and came out the same at the far end. Nothing was added on the way, which the relay that carried it regards as the purpose of a relay. Ref. CIBT-3029-324E-8

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
