Period 1–31 May 2979
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
213,837,433 s	**+10,598,500 s**	**-103,078 s**	**224,332,855 s**

Date	Description	Amount (s)	Balance (s)
06 May	ATM withdrawal: Venus	-86,400	213,751,033
	The withdrawal was held for 29 days at Venus, while the machine's operator, who had been on leave, confirmed that the notes were the Bank's and not a loan from the local office. They were the Bank's, and the operator has since gone back on leave. Ref. CIBT-2979-5F1A-6		
10 May	Temporal Health Plan	-16,078	213,734,955
	Ganymede Heights Infirmary's scheme pays for the first 9 sessions after any shift injury, and the plan pays for the rest. The firm's own office describes the arrangement as a line drawn in one place, and the plan describes it as the same line drawn twice. Ref. CIBT-2979-DFB0-1		
25 May	Payroll credit: Ganymede Heights Infirmary	+2,376,149	216,111,104
	On the day the Ganymede Heights Infirmary wage arrives you move 27 d 12:02:29 to 8564-8250-3484 before lunch and leave the rest where it lies. The Bank has recorded this as a preference and not an instruction, since you have never once asked for a transfer to be made. Ref. CIBT-2979-8FF9-2		
25 May	Slippage fee (Venus, 2 transfers)	-600	216,110,504
	Your 2 transfers were sent on time but arrived 31 days apart, because the second relay will not take a second transfer from the same branch on the same day. It follows this rule and has not yet explained it. Ref. CIBT-2979-E6F5-5		
30 May	Deposit: Hall E	+7,527,380	223,637,884
	Notes are rounded down at the window and coins rounded up, a practice adopted in 2975 to keep the drawer level. This deposit was mostly notes, and the rounding came to 0.950 against you. Ref. CIBT-2979-B883-8		
31 May	Interest at 3.90% APY	+694,971	224,332,855
	The interest is 50 seconds larger this period, which is the sum of the seconds you did not withdraw last period. The Teller asked whether you had been counting them. You had, and she is satisfied the arithmetic is yours. Ref. CIBT-2979-41EE-8		

Closing balance, month by month

Highest 224,332,855 s · lowest 155,891,370 s

June 2978 May 2979

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
